Sample Facility	SAMPLE-005	Example style	50 ft	2	Example maker	MM/DD/YYYY	PASS	N/A	PASS	N/A	1,500	DEMO-001	Example operator	Example only
Sample Facility	SAMPLE-006	Example style	75 ft	3	Example maker	MM/DD/YYYY	PASS	N/A	PASS	N/A	2,000	DEMO-001	Example operator	Example only

How to read this example

Each row identifies an assembly and records its size, length, manufacturer, test date, visual inspection results, pressure-test results, and applied test pressure. N/A means that the additional test column is not used in this fictional example.

All customer details, assembly IDs, dates, pressures, operators, and results are fictional. Example pressures are not recommended test pressures for the hose sizes shown. Actual test pressure, procedure, acceptance criteria, and report requirements are confirmed for each job. This example does not imply a certification or accreditation.
